Fellow Citizens:—It is with a feeling of satisfaction in the work done that I submit my annual report of the schools, and the expenditure of your money, for your consideration. Once more we were fortunate enough to secure our proportion of the best teachers available in the

market, and, as far as possible they have been retained throughout the year. It is an undisputed fact that we cannot get all first class teachers for the very reason that there are not enough to go around, and for that reason we are sure to get some that are not satisfactory. But some arrangement should be made whereby we can retain the best of those we have for the coming year. Once more I wish to take this opportunity to again extend my thanks first to the teachers, for their faithful and conscientious work, to the pupils for their courtesy and seeming disposition to do good work and improve the time before them, to the parents for their words of commendation and seeming appreciation of the work we were trying to do, and for the small amount of fault finding which I have heard. Now, once more, let us try to continue this condition of things as far as possible by being as liberal as is consistent with our appropriations, and by so doing be better prepared to compete with other towns by giving our teachers as many weeks of work as they can secure in the majority of towns, for this is what counts toward securing good teachers.

Respectfully submitted,

G. W. Richardson, Supt.

Your Superintending School Committee beg leave to make the following recommendations for the ensuing year.

For support of common schools,	\$1,300 00
For free high school tuition, (unexpended bal.,)	
For purchase and exchange of text books,	125 00
For repairs and appliances,	200 00
For insurance on schoolhouses,	100 00

Would also recommend that an article be put in warrant to see if the town will vote to instruct the S. S. Committee to maintain schools in numbers 5, and 7, or otherwise. Also

that an article be inserted in town warrant: To see if the town will vote to change the location of the schoolhouse on Patch Mountain so as to better accommodate the children in the old lower mountain district which has been discontinued and thereby save transportation expense, said schoolhouse to be located on land which is common or Frank Morgan's, near top of hill north of Edmond Harlow's house, the exact location to be designated by the school board, and to raise money for same.

Respectfully submitted,

C. B. TEBBETS,  
W. E. PENLEY,  
J. C. LITTLEFIELD,
